

Shields MRI Boston - Granite Ave

## FINAL Diagnostic Imaging Report

Patient: **Doe, Jane**

Referring Physician: Smith, John A MD

MRN: 7654321

DOB: Feb 25 1969 (Age 40 at exam)

123 No Name Street  
Anytown, MA 02222

Accession	Exam date	Exam time	Procedure
2635088.1	Oct 15 2009	08:00 am	MRI - Thoracic Spine (C-)

MRI Technique:

Sag T1, Sag PD, Sag T2, Ax T2, Ax T1 , Ax PD

### Report

History:

Back pain. Decreased sensation.

Findings:

There is a small central disc protrusion at T7-T8 without evidence of cord impingement.

I see no evidence of compression fracture or spinal cord compression.

No intrinsic cord lesion is seen.

Image quality is degraded secondary to motion.

Conclusion:

Small central disc protrusion T7-T8 without evidence of cord impingement.

Electronically signed by Stephen T Sweriduk MD on Oct 15 2009 at 8:48 a.m
